

JAKUB PERKOWSKI

AI / ML ENGINEER | PYTHON DEVELOPER

kubaperkowski22@gmail.com | +48 507706414 | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Software Engineer with 2.5+ years of commercial experience in Python and .NET, focused on AI/ML engineering. Hands-on experience in RAG, LLM applications, deep learning, FastAPI, PostgreSQL/pgvector, Docker and CI/CD, covering the full lifecycle from experimentation to deployment.

WORK EXPERIENCE

Software Engineer | Plum Sp. z o.o.

Jul 2023 – Jan 2026

- Developed Python/.NET modules for driver-monitoring and internal business applications.
- Automated data-processing workflows and maintained GitLab CI/CD deployment pipelines.
- Diagnosed and resolved production issues in existing systems.
- Worked in a Scrum team using Git, GitLab and Jira.

AI / ML PROJECTS

AI Portfolio Assistant

[Live Demo](#) [GitHub](#)

Python, FastAPI, PostgreSQL/pgvector, OpenAI API, Docker, GitHub Actions

- Designed and deployed a bilingual RAG assistant with vector retrieval, conversational context, structured LLM output, citation validation and abstention.
- Built automated evaluation (100% Document Hit@1, MRR 0.873), tests, rate limiting, CI and production deployment on Render.

Deep Neural Networks in Survival Analysis | Master's Thesis

[GitHub](#)

Python, PyTorch, PyCox, Scikit-learn

- Evaluated DeepSurv and DeepHit across seven oncology datasets and compared them with classical survival-analysis methods.
- Developed attention-based variants for relative feature weighting and interpretability.

DiagnoseMe | Bachelor's Thesis

[GitHub](#)

C#, .NET 8, WPF, OpenAI API, Entity Framework Core, Azure SQL

- Built a desktop prototype supporting preliminary medical assessment using an LLM integrated through the OpenAI API.
- Implemented application logic, persistence and database integration in .NET.

EDUCATION

Master of Science in Computer Science

Feb 2025 – Oct 2026

Specialization: Software Engineering and Artificial Intelligence

Bialystok University of Technology

Master's thesis: Deep Neural Networks in Survival Analysis

Bachelor of Engineering in Computer Science

Oct 2021 – Feb 2025

Bialystok University of Technology

SKILLS

- **Programming:** Python, C#, SQL, C++, C
- **AI / ML:** PyTorch, Scikit-learn, Pandas, NumPy, LLMs, RAG, Embeddings, NLP
- **Backend / Databases:** FastAPI, REST APIs, Pydantic, SQLAlchemy, PostgreSQL, pgvector, Entity Framework Core, Azure SQL, SQL Server
- **AI Integrations:** OpenAI API, Structured LLM Outputs, Prompt Engineering, Vector Search, RAG Evaluation
- **DevOps / Tools:** Docker, Azure, Git, GitHub, GitLab, GitHub Actions, CI/CD, Render, Jira
- **Language:** Polish (Native), English (Advanced)
